FOR IMMEDIATE RELEASE

COLUMBIA MEDICAL LAUNCHES NEW TOILETING AND SHOWER SYSTEM

***Optima*[™]TSS (Toileting and Shower System)**

SANTA FE SPRINGS, CA – January 3, 2012 – Columbia Medical continues its focus on bathroom safety and care with the addition of the Optima TSS (Toileting and Shower System). This new multi-use system functions as a stand-alone commode, over-the-toilet system, and roll-in shower chair and can lower overall equipment cost.

The Optima TSS comes with configuration options that can accommodate complex positioning needs. The system can be used with the Columbia Medical Hi-Back[™] and Lo-Back[™] wrap-around back supports with added angle adjustments. With swing-away armrests and footrests, it's simple to use, easy to adjust to fit a variety of positioning needs and versatile enough to grow with your child.

It is a durable system with a 250 lb. weight capacity that is designed to grow with the individual. The small footprint of the Optima TSS and tight turnaround radius provides easy mobility and will fit in small spaces. Ask customer service for more information about the Optima TSS (Toileting and Shower Support).

For more than 30 years, Columbia Medical has provided quality assistive products for individuals with special needs. As we focus on *Solutions for Daily Living*, it is our goal to be the first-choice provider and to offer our dealers unsurpassed service and support, reliable on-time delivery, and a sincere understanding of their clients' unique requirements.

Columbia Medical is located at 11724 Willake, Santa Fe Springs, CA 90670. For more information, please contact us at (800) 454-6612 or visit the website at www.columbiamedical.com
